

## Hopkins Center for AIDS Research Open Studies

Last updated: 3/10/26

| Study Name                                 | Purpose   | Criteria  | Hopkins Patients Only? | Contact Number                    | Contact Person               |
|--|---|---|------------------------|-----------------------------------|------------------------------|
| <b>HIV</b>                                 |   |   |                        |                                   |                              |
| <b>UPitt Patient Survey</b>                | To understand the health experiences of people with HIV who use drugs   | Adults ages 18 and older who are living with HIV and have been prescribed ART for at least one year; must have history of illegal substance use (not marijuana) or prescription drugs for non-medical reasons | N                      | 412-467-6663                      | Ask for Patient Survey       |
| <b>ART Start Study</b>                     | To study how HIV hides in the body since it may point the way to an eventual HIV cure   | Adults ages 18 and older who are living with HIV and are about to start or re-start HIV medication after 2 or more years off treatment, willing to have a large blood draw                                    | Y                      | 410-487-3511                      | Christina Bunch              |
| <b>HIV/Hep B Study</b>                     | To evaluate new therapy in participants with HIV and chronic Hep B coinfection on antiretroviral treatment  | Adults ages 18 and older living with HIV; on HIV and Hep B meds for at least 1 year; suppressed viral loads for both HIV and Hep B  | N                      | 443-927-2798                      | Savannah Greene              |
| <b>SUD-BRAIN Study</b>                     | To study brain imaging with MRI in PLWH with or without historical cocaine use disorder   | Adults ages 18-80 living with HIV; either history of cocaine use greater than 3 months ago or no history of cocaine use   | N                      | 443-326-1965                      | Ask for Brain Health Program |
| <b>RADx HIV Study</b>                      | To evaluate HIV viral load assays   | Adults ages 18 and older living with HIV; prefer those with detectable viral loads  | N                      | 443-540-0718                      | Harris Bayan                 |
| <b>DEPTH Study</b>                         | To study if doxycycline will slow the progression of emphysema in PLWH  | Adults ages 30 and older living with HIV, have smoking-related lung disease   | N                      | 410-550-0800<br>sbaybay1@jhmi.edu | Sydney Baybayan              |
| <b>SAVVY Study</b>                         | To assess if viral suppression can be improved in youth and young adults with HIV if they are counselled on ART options and supported in accessing long acting injectible ART if that is their choice   | Ages 12-30 and living with HIV  | N                      | 443-500-2218                      | Ask for SAVVY Study          |
| <b>Hearts Research Volunteers Registry</b> | To create a registry so the study team can connect with people interested in volunteering in research studies at the Johns Hopkins Drug Development Unit  | Adults living with or without HIV   | N                      | 410-955-1288                      | Ask for the Hearts Registry  |
| <b>SONIC Study</b>                         | To study drug use along with sleep, daily step counts, and other experiences  | Adults ages 18 and older with and without HIV, history of opioid or stimulant use, no history of injection drug use   | N                      | 443-212-8673<br>410-955-7510      | Andrea Ponce                 |
| <b>BOBY Study</b>                          | To assess uptake of Biktarvy, evaluate outcomes compared to other INSTI-based regimens, and assess patients' perspectives on Biktarvy's acceptability, adherence, side effects, quality of life and what they would change about regimen if given the chance. | Adults under 30 living with HIV; currently taking Biktarvy  | N                      | 443-287-8888                      | Elise Ohene-Kyei             |
| <b>ALIVE</b>                               | To follow current and former injection drug users over time   | Adults ages 18 and older, has injected drugs  | N                      | 410-955-7510                      | Ask for ALIVE study          |

|   |   |  |   |  |   |
|---|---|--|---|--|---|
| <b>COC4 Study</b>                                   | To study brain imaging with MRI in PLWH.  | Adults ages 30-90 living with HIV, have an undetectable viral load, and are not using recreational substances of abuse                     | N | 410-955-7311                                 | Leah Rubin  |
| <b>AIDS Malignancy Consortium Studies</b>           | To investigate new treatments and prevention interventions for malignancies in people living with HIV (specifically lymphoma and Kaposi Sarcoma)            | Adults ages 18 and older living with HIV and have lymphoma or Kaposi Sarcoma   | N | 410-502-5396                                 | Laura Clark   |
| <b>HIV Outcomes Study</b>                           | Observational study to help better understand how treatment in medical care affects the course of HIV infection   | Adults ages 18 and over living with HIV and enrolled in medical care with an HIV provider in the Hopkins Barlett Clinic on or after 1/1/14 | Y | 410-955-6415<br>410-955-9872                 | Keyera Anderson<br>Stacey Reese                                   |
| <b>PrEP</b>   |   |  |   |  |   |
| <b>PrEP ER Study</b>                                | To hear from previous patients to help develop a program to provide HIV PrEP in the emergency room for patients who need or who want PrEP                   | Adults ages 18 and older; on PrEP or have been on PrEP in the past; seen in Hopkins ER in the past 6 months                                | Y | 443-202-3914                                 | Ask for PrEP ER Study   |
| <b>MATCH Study Formative Phase (formerly CHARM)</b> | To understand the lived experience of Black women and their sexual health thru a 45-60 minute interview.  | Black women, ages 18 and over, HIV(-), sexually active in past 6 months, English speaking  | N | 410-696-3316<br>charm@jh.edu<br>443-596-4530 | Saisri Gussenhoven  |
| <b>MATCH Study Intervention Phase</b>               | To understand the lived experience of Black women and their sexual health thru one-on-one sessions and support groups.                                      | Black women, ages 18 and over, HIV(-), sexually active in past 6 months, English speaking  | N | 410-696-3316<br>charm@jh.edu<br>443-596-4530 | Saisri Gussenhoven  |
| <b>ADDICTION</b>                                    |   |  |   |  |   |
| <b>SUD-BRAIN Study</b>                              | To study brain imaging with MRI in PLWH with or without historical cocaine use disorder   | Adults ages 18-80 living with HIV; either history of cocaine use greater than 3 months ago or no history of cocaine use                    | N | 443-326-1965                                 | Ask for Brain Health Program                                      |
| <b>ALIVE</b>  | To follow current and former injection drug users over time   | Adults ages 18 and older, has injected drugs   | N | 410-955-7510                                 | Ask for ALIVE study   |
| <b>SONIC Study</b>                                  | To study drug use along with sleep, daily step counts, and other experiences  | Adults ages 18 and older with and without HIV, history of opioid or stimulant use, no history of injection drug use                        | N | 410-955-7510<br>443-212-8673                 | Andrea Ponce  |
| <b>DIABETES</b>                                     |   |  |   |  |   |
| <b>Diabetes Prevention Program</b>                  | A quality improvement program to prevent or delay type 2 diabetes   | Adults with pre-diabetes   | N | 410-614-2701<br>brancaticenter@jhmi.edu      | Ask for Diabetes Prevention Program                               |
| <b>TUBERCULOSIS</b>                                 |   |  |   |  |   |
| <b>Latent TB Study</b>                              | To study if financial incentives and usage of a mobile phone application for adherence support can help patients complete their course of latent TB therapy | Adults starting treatment for Latent Tuberculosis  | N | 443-837-5588<br>443-599-9280<br>443-687-7826 | Marina Martinez Rivera<br>Teresa Gonzalez Rivera<br>Kevin Centeno |
| <b>HEALTHY VOLUNTEERS</b>                           |   |  |   |  |   |
| <b>PrEP ER Study</b>                                | To hear from previous patients to help develop a program to provide HIV PrEP in the emergency room for patients who need or who want PrEP                   | Adults ages 18 and older; on PrEP or have been on PrEP in the past; seen in Hopkins ER in the past 6 months                                | Y | 443-202-3914                                 | Ask for PrEP ER Study   |

|   |   |   |   |  |                               |
